RE: Asbestos Management

Blessed Sacrament School is complying with Federal Regulations on the management of asbestos containing material in schools. Our school has conducted professional asbestos inspections in 1988, 1991, 1994, 1997, 2000, 2003 and 2008. Management plans have been developed from these inspections and the asbestos containing material (ACM) identified or assumed to contain asbestos has been kept in excellent condition. No health threat is posed from ACM kept in this condition.

Asbestos management records are available for public inspection at the school office during regular business hours. The asbestos program manager for Blessed Sacrament School is Rev. Thomas MacLean, PO Box 80329, Lincoln, NE 68501.
